

Highly Scalable Live Video Streaming Platform with Ultra Low Latency

ABOUT ANT MEDIA

Ant Media provides ready to use, scalable and adaptive WebRTC-based Ultra Low Latency Video Streaming Platform for live video streaming needs.

WHAT WE OFFER

Ant Media Server is a well-known video streaming platform and technology enabler, providing scalable, Ultra Low Latency (WebRTC) and Low Latency (DASH/CMAF) video streaming solutions supported with operational management utilities.

Ant Media Server in a cluster mode dynamically scales up and down by leveraging features of Microsoft Azure to enable our customers serve from tens to millions of viewers in an automated and controlled way.

Ant Media Server provides compatibility to be played in any Web Browser. In addition, SDKs for iOS, Android and JS are provided to enable customers to expand their reach to a broader audience. Thanks to the adaptive bitrate streaming feature that allows any video to be played at any bandwidth on mobile devices.

Ant Media Server is one of the top vendors in video streaming market. Its existence is spread more than 120 countries worldwide and there are 3000+ servers actively running.

WHAT OUR CUSTOMERS ARE SAYING

“Our customer experience with Ant Media has been very good, we are a telemedicine company and together with Ant Media we have developed features that give a very good video care experience to patients and healthcare professionals. The company's support is very helpful and always helps us in a useful way with our requests.”

– Klaus Veber, CTO, Conectadoc

Microsoft Azure

Microsoft Azure is an ever-expanding set of cloud computing services to help your organization meet its business challenges. With Azure, your business or organization has the freedom to build, manage, and deploy applications on a massive, global network using your preferred tools and frameworks.

WHY AZURE

BE FUTURE-READY

Continuous innovation from Microsoft supports your development today, and your product visions for tomorrow. With 1000+ new capabilities in the past year, you can build on the latest advancements in AI, blockchain, Kubernetes, containers, and databases to keep you ahead of the curve.

Our enterprise grade analytics solution outperforms the competition, costs less, and is fully compatible with your existing development, BI, and data science tools.

BUILD ON YOUR TERMS

You have choices. With a commitment to open source and support for all languages and frameworks, build and deploy how you want to. Take advantage of the full-featured, integrated development environments with built-in support Visual Studio and Visual Studio Code, the most popular IDEs trusted by 15M+ developers.

We embrace open source, drive innovation through collaboration, and contribute back to the community.

OPERATE HYBRID SEAMLESSLY

On-premises, in the cloud, and at the edge—we'll meet you where you are. Integrate and manage your environments with tools and services designed for hybrid cloud.

Enhance security, simplify access, and set smart policies across your different environments with a single identity platform trusted by 90% of enterprises globally.

TRUST YOUR CLOUD

Get security from the ground up, backed by a team of experts, and proactive compliance trusted by enterprises, governments, and startups.

With a \$1B+ investment in security R&D and 3,500 cyber security experts, security is foundational for Azure.
